### Definitions of PIM on the Web:

Personal Information Manager: Also known as a "contact manager," is a form of software that logs personal and business information, such as contacts, appointments, lists, notes, occasions, etc. (Back to top.)

[www.roadtripamerica.com/dashboarding/glossary.htm](http://www.roadtripamerica.com/dashboarding/glossary.htm)

Acronym for personal information manager. An application that usually includes an address book and organizes unrelated information, such as notes, appointments, and names, in a useful way.

[www.sellmorenow.com/gosfa/glossary.htm](http://www.sellmorenow.com/gosfa/glossary.htm)

A software feature that organizes frequently used information such as names, addresses, telephone numbers and appointments. Many wireless phones come with built-in PIMs.

Protocol Independent Multicast  
[dast.nlanr.net/Glossary.html](http://dast.nlanr.net/Glossary.html)

Personal Information Management functionality started with the Filofax, with all your personal data held in paper form in a single package. The personal organiser came along to store the data electronically with the ability to store the same information on your PC and synchronise the two. The same functionality is now finding its way into mobile phones, which also have the synchronisation capability.

(Personal Information Manager) See PDA  
[www.motorola.com/MIMS/MSPG/Products/Two-way/accompli009/docs/glossary/pqr.html](http://www.motorola.com/MIMS/MSPG/Products/Two-way/accompli009/docs/glossary/pqr.html)

A small furry animal which lives in Terra del Fuego. Difficult to hunt, due to its nocturnal habit, the Pim is worth the chase. Although a full grown pim dresses out at under two ounces, a dozen make a tasty treat. Natives of Terra del Fuego often eat nothing else but pimburgers during the long cold summers in this wind swept land. See also PDA. (ed\_black)  
[www.msg.net/kadow/answers/answers.html](http://www.msg.net/kadow/answers/answers.html)

Acronym for Personal Information Manager. The Microsoft® Outlook® software application is a PIM. It contains an address book, and organizes information such as appointment, task, and notes. Tour de Force was designed to enhance selected functionality in Outlook.  
[www.mrhtech.com/P\\_Glossary.asp](http://www.mrhtech.com/P_Glossary.asp)

Personal Information Management Applications such as Microsoft Outlook and Lotus Notes are generally considered as PIM applications.  
[www.fenestrae.com/Education/Glossary.asp](http://www.fenestrae.com/Education/Glossary.asp)

Personal Information Manager. A variety of software that logs personal and business information, such as contacts, appointments, lists, notes, and occasions and is frequently embedded in PDA devices. Also known as a "contact manager."  
[www.ecommercealmanac.com/ll/glossary3.cfm](http://www.ecommercealmanac.com/ll/glossary3.cfm)

Full Name: Personal Information Management Description: The goal of the PDA environment.
